Part-time summer seasonal STEM educators needed:
Hours: 20-30 hours/week (typically between 8 a.m.-5 p.m.), **June 10-August 29, 2019**

The Works Museum makes learning about science and engineering interesting, engaging and fun. The Works' unique exhibits and programs create memorable learning experiences for all children. Our mission is *to inspire the next generation of innovators, engineers and creative problem solvers.*

The Works is looking for educators to work with groups of elementary-age children, teachers, and families delivering our Museum and Outreach programs. We are looking for people who share our passion for science, technology, and engineering.

This educator will be dedicated to:

- Making engineering inspiring, relevant and accessible to children.
- Creating an environment that welcomes every child, parent, and teacher.
- Facilitating open-ended problem solving and experiential learning.

Requirements

- Bachelor's Degree or equivalent experience in Elementary Education or Secondary STEM Education.
- At least 1 year experience working with elementary-age children, in an informal or formal setting.
- Excellent verbal and written communication skills.
- Interest and/or background in a STEM field.
- Experience working with diverse communities.
- Ability to lift 50 pounds.
- A valid, state-issued driver's license.

Personal Attributes

- Proven ability to work in a team setting and independently.
- Punctuality, attention to detail, and excellent follow-through.
- Flexibility and a good sense of humor.

To Apply: Please submit electronic cover letter and resume to jobs@theworks.org. Applications will be taken until position is filled. No phone calls, please.
