Looking for a fun teaching job with predictable hours?

The Works Museum is looking for STEM Educators!

theworks.org

Gain additional experience in:

- Classroom management
- Experiential and project-based STEM education
- STEM curriculum development

The Works Museum makes learning about science and engineering interesting, engaging, and fun. Our mission is to inspire the next generation of innovators, engineers, and creative problem solvers. If you’re looking for a collaborative workplace where you can make a difference for kids in our community, this might be a fit for you.

Our STEM Educator team is dedicated to:

- Making engineering inspiring, relevant and accessible to children.
- Creating an environment that welcomes every child, parent, and teacher.
- Facilitating open-ended problem solving and experiential learning.

We are looking for people who share our passion for science, technology, and engineering. STEM educators teach our day camps and workshops to children ages 5-13. Most programs take place at the Museum, although we also have outreach programs.

Hours for this position will be 30-35 hours/week through the end of the school year, with core hours Monday-Friday between 8 a.m. and 5 p.m. Will also include some evenings and occasional Saturdays. Summer positions available, as well.

Responsibilities

Program delivery

- Teach workshops to schools and other groups during their field trips.
- Teach outreach programs at schools and other community sites.
- Teach summer camps to children ages 5 to 13.
- Present activities to families during public hours at the Museum.
Curriculum development

- Work with a team of colleagues to develop STEM curriculum for summer camps and group workshops.

Qualifications

- Bachelor’s Degree or equivalent experience, preferably in Elementary Education or Secondary STEM Education
- At least 1 year of experience working with elementary-age children, in an informal or formal setting: schools, early childhood centers, after-school programs, summer camps, museums, etc.
- Excellent verbal and written communication skills
- Interest and/or background in a STEM field; background in coding or technology education a plus.
- Experience working with diverse communities
- Ability to lift 50 pounds
- A valid Minnesota driver’s license

Personal Attributes

- Proven ability to work in a team setting as well as independently
- Punctuality, attention to detail, and excellent follow-through
- Flexibility and a good sense of humor

The Works is an equal opportunity employer and does not discriminate against any individual with respect to the terms and conditions of employment based on that individual’s race, sex, age, religion, color, national origin, disability, genetic information, marital status, veteran status, sexual orientation, gender identity or expression, housing status, or any other non-merit factor protected under state, local or federal laws.

To Apply: Please submit electronic cover letter with salary requirements and resume to jobs@theworks.org. We’ll begin evaluating applications as they’re received. Position open until filled.
