

Cork Sailboats

Materials

- 3 Corks
- Rubber bands
- Craft foam
- Toothpicks

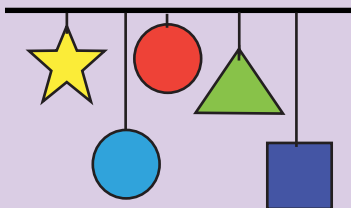

Instructions

- Bind three corks together by using two rubber bands to secure them (to make a boat).
- Cut out a sail from the craft foam and decorate it.
- Stick a toothpick through the sail so that each end of the toothpick sticks out from both ends of the sail (like a mast).
- Stick the end of the sail toothpick into the middle of the cork boat.
- Place your boat on the water and get ready to set sail!

Mobiles

Materials

- Wire
- Pliers
- Paper
- Markers
- Hole punch
- Fishing line

Instructions

- Using pliers, bend and twist the wires so that they connect in fun ways.
- Cut shapes from the paper. Decorate them however you want.
- Punch a hole in each shape and slip the wire through the hole.
- Coil the wire at its end so that the paper stays on.
- Loop a piece of fishing line through the top of your mobile and make sure it is well balanced.
- Hang up your mobile and admire your design!
