Meet the Engineer

ANA MARIA PORRAS

“Meet Ana Maria, she’s a biomedical engineer! She studies the microbes inside of our guts. Her passion is combining her love of engineering and crochet art.

“My advice to you? Be brave and don’t be scared to try new things. Maybe one day you’ll also have a job that goes beyond your imagination. If I could do it, so can you!”

Learn more about Ana Maria and her work at theworks.org/she-engineers.
