

Meet the Engineer

RITU RAMAN

MEET RITU, SHE'S A
BIOMEDICAL ENGINEER!

IN THE SAME WAY THAT PEOPLE
BUILD MACHINES WITH WOOD,
METAL, OR PLASTICS, RITU BUILDS
MACHINES OUT OF LIVING CELLS.

“When I cut my skin, it heals. When I exercise, I get stronger. So I build machines and robots that solve problems using biological materials.”

Learn more about Ritu and her work at theworks.org/she-engineers.
