The Works Museum Camp Safety Procedures

Updated October 15, 2021

Thank you for engineering with us this school year! The Works Museum is committed to providing a safe and healthy environment for our workers and customers. We are taking the following safety precautions for our camps based on CDC and Minnesota Department of Health recommendations.

Symptom Screening

- The Works Museum staff are self-screening for symptoms of COVID-19.
- At camp check-in, we will ask COVID-19 symptom screening questions. If a child, or a member of their household, is experiencing symptoms of COVID-19, including a fever of 100.4 degrees Fahrenheit or higher, cough, shortness of breath, or flu like symptoms, they will not be permitted to attend camp until they are symptom free for 72 hours without the use of a fever reducer.
- If a child begins to experience symptoms during the camp day, they will be separated immediately from the other campers and sent home.
- If a camper tests positive for COVID-19, The Works Museum will follow the Minnesota Department of Health's guidelines for addressing confirmed cases and alerting the appropriate parties.

Distancing Measures

- Each camp will have no more than sixteen campers and two staff for four-day camps, and 30 students and 3 staff for one-day camps.
- Within camp groups, we will design the activities to allow as much distance between individuals as possible.

Respiratory Etiquette and Hand Hygiene

- All Staff and visitors to the museum, age 5 and older, are required to wear masks indoors regardless of vaccination status, except when eating or drinking.
- Staff and campers are required to wash or sanitize their hands first thing upon entering the building and before leaving, as well as frequently throughout the day. Hand sanitizer will be available in the classroom and throughout the Museum.

Cleaning

- The Works Museum has implemented increased cleaning procedures by a professional cleaning crew.
- We will ensure that high touch surfaces are sanitized each day after camp.

Campers who do not follow our policies or engage in behavior that jeopardizes the safety of other campers or staff will be sent home.

The Works Museum will continue to monitor the COVID-19 situation and may update our safety procedures as needed. Please contact us if you have further questions about the details of our safety procedures.
